## DETAILED ACTION

### *Claims*

1. Pursuant to entry of the amendment dated 10 November 2003, claims 25-67 are pending. Claims 64-67 are new.

### ***Non-responsive Submission***

2. The timely submission under 37 CFR 1.129(a) filed on 10 November 2003 is not fully responsive to the prior Office action because the rejections were not argued against in detail. Specifically:

a. The allegations regarding the references, as discussed on pages 11-15 of the response, are summary in nature and did not give details regarding the references or how they differ from the claims.

b. There is no detailed discussion of the Noiles patent on page 15 of the response.

3. The examiner cannot formulate detailed responses to applicants "arguments" when applicants have merely submitted textual documents and made sweeping allegations saying, in effect, that the 35 USC 112 rejections are not proper and the prior art is not properly applied to the claims. See MPEP 714.02 and 714.03.

4. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37

Art Unit: 1772

CFR 1.136(a). If a notice of appeal and the fee set forth in 37 CFR 1.17(e) were filed prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a). The appeal stands dismissed.
